## NEWSLETTER

APRIL 2022

Hi everyone! Thanks for your prayer and financial support!

This month newsletter is an update concerning the Vineyard Macapá. We started and finished a small renovation project. This included new wall texture and paint, a new tile floor, a new mounted projector and new lights and fixtures. It has a new fresh look that could help members put the difficulties of the past behind them. We were able to finish in time for the Easter celebration! This was a project sponsored by the Xingu Mission. So, this was another project you had impact in. Many of the Brazilians expressed appreciation for what was done. The pictures on right side are pictures of the renovation. One picture, upper left, gives a view of what it used to look like.

Fred, one the church leaders, sponsored a “Hamburger Night” for men at his house. Lots of men showed up. We did what men do best– eat a lot! I was a good time of fellowship and good fun. The burgers were great! Photos on the left side are of the event. The photo below is a panoramic shot of a Majestic sun set! It was stunning. I know you don’t get the same impact I did. But, I wanted to share it with you anyway.

Ok my friends, Just a short update. Things are happening. I received a message from the wheel chair ministry in the US. So, hopefully I will be reporting on further developments soon!

May the Lord richly bless each of you as you seek to do His will. Bob Leshner
