## NEWSLETTER

OCTOBER 2024

Hello everyone, I hope you are doing well. Thank you for your participation with this ministry through your giving and prayer! It is really appreciated!

This Month I want to share what I have been doing in the Church. There are a couple of new things I have been doing.

First, The church needed a bass player. The pastor and the worship leader wanted to offer instrumental classes to the congregation. So, I thought I could learn the bass fairly quickly having learned the guitar years ago. I started learning with Daniel, the worship leader. To my surprise it went really well and faster than expected. I have played on and off with the band recently. I really enjoy playing and hope to continue.

Daniel is a very talented musician. He is a big, sweet teddy bear that loves to laugh and have fun. He has a great heart for worship. So, with great patience he is teaching me and two other students keyboard and guitar. He is a busy young man. o texto

The second thing I have done is preach!

This is the short story. Pastor Léo express this idea of me preaching over a year ago. To be honest this is something I have thought about for years. But never took it serious. As time went by I thought I should consider what God might be saying. I prayed and prepared myself. There we're confirmation along the way. The first time I preached it was a short sermon.

I didn't want to over do it the first time speaking in a foreign language! So, I thought went well. I hope to do again.

Lastly, here I am participating with "Love in Action". This is something I like to do. It is an outreach of the The Church. We have a good group that helps. We have recently added another time to go to a near by park to minister to people. The emphasis is to go "deeper" with people by offering a word from the bible, praying with them and listening to their stories. It's been a growing experience for me to just step into it and not worry how I sound! That is a challenge.

Ok my friends and family, that is an update. Thank you so much for taking the time to read the letter. Please pray for us. Pray for God's Power, Love and Joy to be expressed through us!
