## NEWSLETTER

November 2024

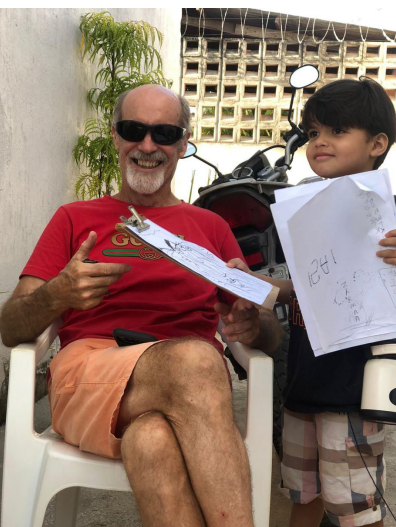

Hello everyone, Thanks for taking time to connect with the ministry through the newsletter. I appreciate your prayers and financial support! Luana is doing a great job putting this together. So, these are some of the highlights and moments we want to share with you.

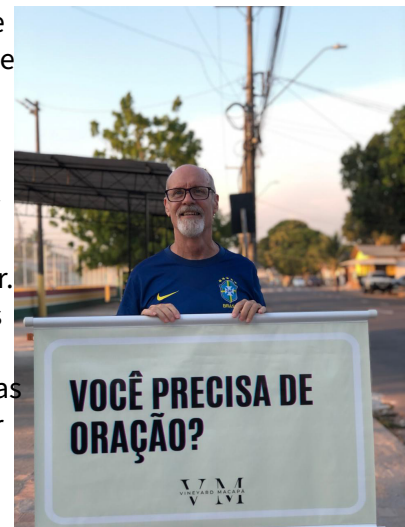

Playing in the band has been a great experience. It also has given plenty opportunity to trust the Lord with the many details in learning and preparing for Sunday worship. I don't always have every detail "under my fingers"! So, trusting is better than stressing.

At time we need to clean up the "campo" This is an area in front of the church. It is actually part of the the dirt road. The mayors office has failed to keep it's promise to asphalt our road. So, pastor Léo keeps the grass cut down. Kids use the area to play. Adults use it to visit. We also use this area for barbecues! Brazilians are great at adapting to the surroundings.

.This little boy is Isaac. He is the son of a single mother who is a member of the church. He is sweet as can be. He also has a voracious appetite! I was teasing him one time about sharing with me one of the four bananas that he was about to devour. I didn't get one! In the picture, he is showing me a picture he drew of me wearing my bandana. It was so cute!

.This is the Highlight for the month! "Love in Action" We love going out to the park with our signs and sowing the seeds of love to those that need a hug, a snack or most of all prayer! One young man came for prayer. He said when he saw us his heart started beating real fast. He felt like the Lord was telling him to get prayer for his family which was in a crisis. Please pray for this ministry. Pray for divine connections.

We were in a series about the disciples. I chose to talk about Peter, James and John. These three were with Jesus at some extraordinary times. My teaching was related to our development towards intimacy with Jesus Ok friends that is it for this month. Please keep us in your prayers. Bless you all! **Bob Leshner**
